Dear Parents,

We are delighted to introduce 'Infinite Active' to you, the Extended Fellows provision that will be available to FS1 - Y6 students at Harrow International School Dubai throughout the upcoming academic year.

Infinite Active has built a programme to offer an invaluable service to parents at an affordable cost. Our programme is designed to give parents the helpful option to extend their child's school day with different timing options to choose from. Daily, weekly, termly and 10 session packages are available for each of our sessions.

Not only do we offer ultimate convenience for parents, we also keep the children at the forefront of our planning. No two days at Infinite Active are the same, which is why our programmes are the perfect mix of activity, adventure and surprises! We aim to build the confidence of our students whilst introducing them to new activities and new friends, as well as giving them the chance to explore existing interests and broaden their imagination. Activities will include a variety of team games, quizzes, multi-sport activities, arts and crafts, sensory play, story time, outdoor play during the cooler months, as well as a dedicated session celebrating Harrow's core values.

For Term 1, Extended Fellows will commence on **Monday 31st August 2026** and will run for **14 weeks** until **Friday 11th December 2026.**

***** FS Parents***

*Please note **FS1** Extended Fellows will commence from **Monday 6th September 2026.***
*Please note **FS2** Extended Fellows will commence from **Wednesday 2nd September 2026.***

The delayed starts allows time for the children to settle into school before extending their day. Prior to registering, we strongly recommend that parents consult with their child's class teachers to determine if their child is ready for extended school days.

To enrol your child for any of the programmes, please scan the QR code on the below page.

Please do not hesitate to reach out to the Infinite team with further queries you may have.

Yours Sincerely,
Riëtte Wright
Infinite Active Manager
